Subject: Microsoft Settlement

To whom it may concern:

Pursuant to the Tunney Act, I am writing to comment on the proposed settlement of the United States vs. Microsoft antitrust case.

The proposed settlement fails to serve the public interest by leaving the Microsoft monopoly on operating systems essentially intact. This failure further erodes consumer protection by preserving the platform by which Microsoft can unfairly and illegally arrogate to itself an increased market share of other domains, such as internet and office applications.

In its current state, the proposed settlement is unacceptable. A revised settlement should be drafted which curtails Microsoft's monopolistic practices.

Thank you for your attention.
